

### PLEDGED SENATORS WAY OF DOING BUSINESS

#### Some Are Ready to Retreat and Accept President's View.

The bill first to be decided on when the bill gets to the conference will be the American or foreign valuation will be the standard. It will be a skirmish, of course, but the end foreign valuation more likely is to be adopted.

The story is going the rounds that of the House conferees who decided on American valuation in the first instance only Representative Fordney remains to be converted to foreign valuation. One time he said that in order to obtain an American valuation he would remain in Washington "until the snow flies." Hardly anybody anticipates that. There is too much to be made on the part of the special interests who will benefit by the bill.

**Foreign Basis Seems Certain.**

Both Representatives Green and Longworth are said to be of the opinion that if they cannot get American valuation in the preliminary bouts they might as well go to the Senate side. It is followed in the way, always, by the tariff bill. Foreign valuation, therefore, is almost certain.

The fact that specific duties are provided on wool and sugar, 22 cents a pound on wool and \$2.30 on sugar—pounds (\$1.81 for Cuban) on sugar—has fairly sure that these two rates will be maintained. The standard of valuation undoubtedly will be the two chief points popularly remembered about the present bill.

Comments of the measure called attention to-day to the fact that the bill now being put into final form is intended to raise \$108,000,000 yearly in revenue while at the same time providing \$3,000,000,000 to the consumer between \$3,000,000,000 and \$2,500,000,000 in the form of protection which may be added to the essentials of life, such as food, clothing, shelter, and man, woman and child in the country. The Underwood law now in force yields revenue at the rate of \$140,000,000 a year, or only \$58,000,000 a year less than the Fordney-McCumber measure.

Senator Simmons (Dem., N. C.), ranking Democratic member of the Senate Finance Committee, joined with Arthur C. Stanger, representative of the Silk Defense Organization, to-night in a statement attacking Horace B. Cheney, one of the leaders of the Silk Association of America, who has insisted on the high rate on silk goods in the tariff bill. Mr. Stanger has been in Washington as the agent of a group of domestic manufacturers who wanted low rates on silk, and Mr. Cheney has been made a vigorous and partially successful fight against another group of manufacturers led by Mr. Cheney. The case of the statement was made in the Senate. Mr. Cheney has made statements in his fight on the silk schedule.

**Their Side of the Case.**

Here is their statement in part: "Senator Simmons did not say that the Cheney dominates the silk industry of the country. He did say that Cheney and his associates control the establishment in tariff legislation." Evidence of this is the fact that the Silk Association of America, of which Mr. Horace B. Cheney is recognized as the leading spirit, is a member of the Senate Finance Committee in tariff matters, did not at the start or at any other time consult its entire membership on the question of tariff rates, and individual members in consequence of Mr. Cheney's position, two independent bodies, one called the Silk Defense Organization, composed of traders, importers and numerous domestic manufacturers, and the other, known as the group (spun silk protestants), of about thirty leading silk manufacturers, all of whom protested vigorously against the activities and exorbitant rates recommended by Mr. Cheney and his associates. As Senator Simmons styled it in his debate.

"The Silk Association has said that 65,000,000 yards of silk are imported yearly. Imported during the year 1921, it is surprising that Mr. Cheney and his group should resort to such gross misrepresentation, as such figures can be readily ascertained by the Bureau of Commerce agencies recorded imports of woven fabrics in units of pounds and dollars, and even an investigation of export statistics of foreign graduates can disclose any such gross and assumed square yardage. To obtain even an approximate of square yards imported would be impracticable. It would require detailed information regarding dimensions of fabrics imported.

"A similar exaggeration took place when Mr. Cheney submitted a rather deceptive chart at the hearing before the Ways and Means Committee. The chart showed that imports of woven fabrics increased to approximately \$50,000,000 in 1920, whereas the tariff commission reported in its summary of imports of woven fabrics amounting to only \$25,000,000 for 1920."

### LABOR CHIEF DENOUNCES 8B GRADE GRADUATION

#### Says Exercises Give Impression Education Has Ended.

Peter J. Brady, chairman of the committee on education of the State Federation of Labor, objects to the graduation exercises that mark the close of the elementary school period of a youngster's life, and will bring this to the fore at the convention of the federation in Poughkeepsie this week.

"Many parents and children regard graduation from the 8B grade as a proud occasion, and this impression is heightened by elaborate public ceremonies when some trustee or prominent citizen attempts to give a few words on the brilliant careers opened to them," said Mr. Brady. "There should be no break in the continuity of advancement. Higher grade and graduation exercises should be held only on completion of the fourth year in high school."

"Popish or over-dressed children are a source of destruction in the classroom, and wherever such a practice can be discouraged it will help to produce a better feeling among pupils and be an aid to their parents, who sometimes go without the normal life in order that their children may be extravagantly dressed at other children."

### LABOR UNION LEADERS GUILTY OF EXTORTION

#### Four Convicted in Chicago for Crooked Strike Work.

CHICAGO, Aug. 20.—Thomas Walsh, Frank Hayes, Patrick Kayne and Roy Shields, labor union leaders, were found guilty last night of conspiracy to extort and the penalty for each was fixed at one year's imprisonment in the county jail.

Against each defendant witnesses gave testimony to the effect that strikes had been "fixed" and paid for by contractors and builders of the city. All of the defendants denied ever calling a strike for such purposes, and all denied taking any money from Kane, who asserted that only contractors and builders had given him a "little present" of \$500.

John E. Northup, the prosecuting attorney, characterized the verdict as a "stop step in the long fight against which is going to destroy union labor crookedness, save the unions for themselves and save the public from the grafting of crooked business agents."

### U. S. Acts to Uphold Rights of Americans

TOPEKA, Kan., Aug. 20.—Conspiracy to deprive an American citizen of the right to life, liberty and the pursuit of happiness is the charge made in court proceedings brought yesterday by the Federal Attorney here against six striking shopmen in Wichita.

The defendants are said to have assaulted five of the railway employees who were on the way home from work.

campaign are certain to come in for censure in the debate.

The first move to be made by the opposition on Wednesday will be in the form of a demand that the McCumber bill, which is 8,000 words long, be read from title to enacting clause. Mr. McCumber has indicated that the measure will be requested to explain in the clearest terms the purpose and effect of each clause.

**Where Attention Will Be Directed.**

Particular attention will be paid to the declaration of Mr. McCumber that President Harding can be severed from the firm position he has taken on the issue of the tariff. For reasons of expediency affecting the political ambitions of candidates for the Senate and House of Representatives. The presentation and explanation of the bill will consume two or three days, perhaps a week or two weeks. That is a matter of speculation. One guess is as good as another.

Then the tariff bonus scheme has been revealed to the Senate it will be open to amendments. These amendments, of course, will be offered by Senators who have publicly asserted their opposition to the tariff and the Treasury—and privately condemned it. Opposing Senators will discuss these amendments quite as extensively as the main measure. The only motion that any opposing Senator is expected to make will be to recommit the bonus measure to the Finance Committee, which framed it, and permit it to die in that subordinate body.

More than twenty amendments have already been drawn to "perfect the bill." These cover a wide and varied assortment of amendments, but the manner in which it should be financed. According to one of the bonus Senators, all of the amendments he has read "provide everything except the bonus which is a matter of speculation. One guess is as good as another."

### DEMOCRATS TO MAKE TARIFF THE BIG ISSUE

#### Republican Group Wants Bill to Stay in Conference Until Election.

ITS FAULTS REALIZED

One Senator Who Got His Share Calls Measure an 'Economic Bludgeon.'

WET AND DRY ISSUE IS UP

Ku Klux Klan Will Dictate in Some Congressional Contests.

By LOUIS SEIBOLD.

Special Dispatch to THE NEW YORK HERALD.

New York, Aug. 20.—The managers of the two major political parties are far apart in appraising the value of the tariff and bonus as campaign issues.

The Democrats naturally will try to make the tariff the paramount issue of their campaign to cut the Republican majority in the Senate and win control of the House of Representatives.

The Republican program has not sufficiently crystallized to justify a prediction as to the amount of importance the candidates of that party will attach to the tariff measure.

It is by no means certain that the Fordney-McCumber tariff bill, which passed the Senate yesterday with three Republican votes against it, will emerge from the conference between the two houses in time to play a conspicuous part in determining Congressional elections.

The Congressional leaders of President Harding's party are divided in opinion on this point. The more rational of them who apprehend the effect of the damaging popular case made against the bill would like to see it remain in conference until after the November contests. The Democratic leaders, who are fully justified in asserting partisan advantage, will, of course, do the best they can to treat the tariff as an accomplished fact, basing their claim on the passage of it by both houses on the recommendation of President Harding.

**Republican Resentment.**

It will be contended by Democratic candidates that regardless of the treatment of the tariff measure by the joint conference it must be accepted as the official expression of the Republican party in regard to the tariff. The bill would be a "protective tariff measure," the most extraordinary feature of the tariff debate which resulted in the passage of the bill. The bill would be a "protective tariff measure," the most extraordinary feature of the tariff debate which resulted in the passage of the bill.

### MANILA LEGISLATURE MAY DELAY GEN. WOOD

#### Not Expected to Return Until After January 1.

MANILA, P. I., Aug. 20.—(Associated Press).—The date of the departure of Governor-General Wood for the United States to assume the presidency of the University of Pennsylvania depends on the speed with which the Philippine Legislature works, according to a member of his staff.

Gen. Wood is preparing a program which he expects to carry out in the Legislature before he leaves, it was said. This may require his presence in Manila several weeks after January 1, by which time he was required to be in Philadelphia.

### BYFIELD HERE TO GET BERENGARIA WITNESSES

#### Accuser of Atlanta Banker Promises Statement To-day.

Clyde K. Byfield, whose wife, Mrs. Sarah Byfield, has brought a \$100,000 damage suit against Walter T. Candier, Atlanta banker, for an alleged attack on her on board the steamer Berengaria, said that he would make no statement until after a conference to-day between his lawyer, Louis B. Roser, and August Dreyer, a lawyer here.

Mr. Dreyer was a passenger on the Berengaria when the incident on which Mrs. Byfield bases her action is said to have occurred. He issued a statement Saturday in which he said that after the steamer docked in Cherbourg "it was agreed that all would meet in New York when we returned and that the matter would be settled there."

It had been reported that Mr. Byfield and his attorney, while in New York, would attempt to obtain from Mr. Dreyer a statement as to what he saw on the Berengaria.

### 4,650 KU KLUX KLAN MEMBERS INITIATED

#### Ceremonial in Field Near Chicago at Night.

CHICAGO, Aug. 20.—What was said to be the nation's biggest class of Ku Klux Klansmen—4,650—was initiated in a huge field just outside of Chicago late last night.

The rites were held in a great field, thousands of automobiles being parked in a big circle a quarter of a mile in diameter. In the center of the circle, outlined by glaring headlights of the cars, was a small altar. The ceremony was estimated that 25,000 persons witnessed the ceremonies, representing the eighteen Klans in Chicago and the twelve outside of Cook County in the State.

There scarcely is any doubt that a determined effort will be made in conference finally to produce a real tariff bill. The tariff measure will be more than offset by the increased cost of manufactured products.

**World Revive Bill.**

### BRITISH FLIERS DIE ATTACKING TRIBESMEN

#### Bombing Plane Crashes to Ground in Flames.

LONDON, Aug. 20.—Lieut. Luard and Duncanson were burned to death when their airplane crashed to the ground in flames at Dardani, British India, says a Lahore dispatch to-day to the Bhamoan Telegram Company. The aviators were killed when the plane was being attacked by tribesmen with bombs to deal with recalcitrant tribesmen.

Spectators were unable to render assistance because of the intensity of the flames and the exploding bombs.

### POINCARÉ DECLARES FRANCE WILL MAKE GERMANY PAY

#### Tells Thiaucourt War Victims Every German Will Be Held to Strict Accountability for Repair of Damage Inflicted.

THIAUCOURT, France, Aug. 20.—(Associated Press).—France knows how to make Germany pay for the destruction she caused during the war, and every German will be held to strict accountability for the repair of the damage. Poincaré told the assembled population of Thiaucourt which gathered together to-day to dedicate a monument to the soldiers of this community who died in the great struggle. Mr. Poincaré had a double meaning in that the monument was designed also to honor scores of civilians who died as a result of occupation of the town by German troops.

After reviewing the heroic part played by the town in resisting the German drive on Paris in September, 1914, and the intense suffering of the population under German occupation, the Premier declared:

"You citizens who have witnessed these horrors committed by Germany, you who have seen your children, your children and friends fall before your eyes because of German barbarity, can you comprehend that to-day, after our hard-won victory, there are certain people in the world who are blind enough to advise us to leave unpunished the authors of this outrage against civilization and the rights of humanity?"

"Germany violated all the recognized rules of warfare. She bombed, pillaged and laid waste without justice or reason. She bombarded unprotected towns and used poison gas, all in an effort to win by terror a war which she desired to win by force. It is not sufficient that since their defeat a certain number of Germans have weakly repented this crime and destruction. When it was being committed and brought about, the Germans encouraged or at least tolerated it."

"All Germany is associated with the sacking and burning of the devastated regions, and the French people equally assume responsibility for this outrage. All are equally held to repair the terrible damage we have suffered, and we know how to exact reparation for these horrors. The French people are re-armed with great enthusiasm. He is expected to deliver an address of great importance on the reparations question to-morrow at the opening session of the General Council of the Department of the Meuse."

### U. S. WARNS CUBA OF ALIEN TRAFFIC

#### 70,000 There Await Opportunity to Be Smuggled Into This Country.

WASHINGTON, Aug. 20.—(Associated Press).—Representations have been made to the Cuban Government by the State Department looking to steps to prevent further smuggling of Chinese and European aliens from the island into the United States.

In a note transmitted through the Cuban Legation, the American Government is understood to have taken the position that by the number of aliens admitted to Cuba, and the report that there is no employment available there for them, it appears that entry to Cuba is obtained upon the belief that eventually the aliens can be smuggled into this country.

Creation of entry barriers by Cuba, it is believed by Department of Labor officials, would go a long way toward reducing the United States of these difficulties.

Dr. Arturo Padro y Almeida, secretary of the Cuban Legation, said to-day that he was hopeful of closer cooperation between the Cuban Government and the United States as a result of the representations which he declared, he had communicated to Havana with "the necessary recommendations."

**70,000 Waiting to Ship.**

Approximately 30,000 Chinese and about 40,000 aliens from all over Europe are now in Cuba awaiting opportunity to enter this country surreptitiously, in the belief of Secretary Davis. Constant smuggling of aliens into the United States, in accordance with the provisions of the Immigration Act of 1917, is a menace to the Government and should be halted without further delay. If effective remedial measures are not taken, the Government should be apalled at once through voluntary cooperation between foreign governments and the United States," he said, "then Congress immediately should enact a compulsory registration law to be applied to all aliens within the borders of this country."

The Labor Department was said by Mr. Davis to be convinced that Bolshevism and Communist organizations throughout the world are resorting to every possible subterfuge to get their agents into this country. He had no doubt, he added, that those who participated in the massacre of miners at Herrin, Ill., were aliens who had been smuggled into this country.

Mr. Davis declared, he said, that there are at least 100,000 aliens in the United States who have no right to be here and who if rounded up and deported would "tax the capacity of American shipping to carry them back to their homelands." Director Burns of the Bureau of Investigation of the Department of Justice, he said, had estimated the number of such aliens to be at least 200,000. There are, he said, in all institutions, poor houses, and other institutions, he estimated, at least 200,000 dangerous aliens who should be deported forthwith.

**Great Expense to Deport Chinese.**

The department has been seriously concerned because of the great expense in deporting Chinese. They are, he said, have entered this country from Cuba and Canada. Many of the Chinese arrested in Florida, apparently after having been smuggled into the country, have been deported to Cuba under protest of the Cuban Government, which held that they should be sent to China.

The case of Chinese, the department must deport such Chinese direct to China as Canada refuses to accept the Orientals after crossing the international border. Nevertheless, immigration inspectors have discovered, Mr. Davis said, that thousands of Chinese, guided by well-paid smugglers, enter the Canadian Northwest, usually at Vancouver, travel the length of Canada to Atlantic ports, where the embargo is broken, and the intention of gaining illegal access to the United States, along the Florida coast. Along the Canadian border, especially in the vicinity of the St. Lawrence, Mr. Davis declared, there also are bands of Chinese ready to slip across the border line at the first opportunity.

### SIX MEN ARE ARRESTED STRIKE DYNAMITERS

#### Buffalo Police Cases Will Clear Up Trolley Attacks.

BUFFALO, Aug. 20.—Robert C. Lacey, former president of the Central Labor Council of this city, was arrested to-day by the police, who accuse him of transporting dynamite without a permit from the Fire Department. It is suspected this dynamite was being used in the attacks against the local trolley company. Lacey denies all knowledge of the dynamite.

Five other men, all striking employees of the trolley company, were arrested last night and all except one were released in \$500 bail. The exception one is being held on an open charge. All were caught with dynamite and sticks of it in their possession, or are accused by their fellows of having had it concealed.

The police say that arrests will be made within a day or so that will clear up the dynamite attacks on the trolley company. The buyers of the dynamite can be traced by the wrapping papers. The police are convinced the explosive was bought and followed by a Chinese in this county, as well as in Erie and Niagara counties, have been guarded carefully since the trucks have been attacked by explosives.

### CAR HITS CATTLE, MAN KILLED

SCHENECTADY, Aug. 20.—Chester Gill of Corinth suffered a fractured skull and died almost instantly early this morning when he drove an automobile into a herd of cattle on the State road three miles outside of Saratoga Springs. His automobile was ditched by the collision.

### CUPLE SHOT TO DEATH IN THEIR SUMMER HOME

#### Revolver Found Clutched in Hands of Wife.

WATERBURY, N. Y., Aug. 20.—Mr. and Mrs. Bunting of Waterbury were found dead at their summer home near Chaumont to-day, both having died of bullet wounds.

A revolver, clutched in the hands of the woman, was the cause of the belief that she killed her husband and then committed suicide. Bunting, who was an automobile salesman, was shot in the face by his wife. A bullet wound through the heart.

The tragedy was discovered by a brother of Mrs. Bunting. Mrs. Bunting is said to have been suffering from ill health.

### IRISH FORGET RELIEF IN JOINS OF FIGHTING

#### Blows and Names Fly Fast at Casino Meeting Called to Aid Ulster.

MANY PRIVATE SCRAPS

Larkin, Who Goes to Jail on Wednesday as Anarchist, Assails K. of C.

The Ulster Defense Society held a meeting in the Casino Theater last night to further a plan to raise and equip a relief ship "for the destitute women and children of 'Ulster,' but everybody forgot all about the purpose of the gathering in the joy of fighting. Shouting, much cheering, many threats and at least one flag class took in the eye, delivered by a rabid pro-De Valera man, marked the proceedings. The victim of the blow taken on the face in an argument, and complained that his assailant ought to apologize publicly.

"I will not," said the hater. "You deserve to get soaked for sitting there saying idiotic things."

It was like that all during the meeting. James Larkin, the Irish radical agitator, who goes back to Great Meadows prison at Comstock on Wednesday to finish prison sentence of five years for criminal anarchy, was the principal speaker. He was also about the only one who had any control over the audience.

Most of those in attendance seemed to be great admirers of Eamon de Valera, and much of the rioting came when speakers forgot or neglected to praise their idol.

Larkin devoted most of his speech to denouncing the Irish Protestants for what he considered their outrages against the Catholics. He said that the Protestants, the Free State troops and the British soldiers have shot vast numbers of Catholic workmen and their wives and families, including 411 women and 113 children. The figures are Larkin's, who did not give their source. He also said that 10,000 Catholic workmen in the shipyards at Belfast were driven out of the city and many were shot because they refused to depart.

William Sheehan, who said that he represented organized labor, mentioned the Valera's name in connection with the signing of the Free State treaty. Instantly the house was in an uproar and many private fights broke out in the boxes and the orchestra seats. The man sitting alongside the stage questioned the accuracy of some of Larkin's statements and Larkin promptly called him a liar.

One of Larkin's admirers struck at the objector, but missed and hit another Larkin man, whereupon the two Larkin men had a little fight all their own, with no political significance whatever as far as the situation in Ireland. Between catcalls and cheering and shouting Larkin ceased denouncing the Protestants and the British and the Free State troops, and turned to the moment the Knights of Columbus and the Hibernians, because they had ignored telegrams sent by him regarding "conditions in Belfast."

At the end of the speaking a collection was taken. It was admitted that several hundred dollars was obtained. No official action was taken on the purpose for which the meeting was called.

### DEPORTED BY ENGLAND; HELD ON RETURN TO U. S.

#### Alleged Bolshevik Unwelcome Even on Ship at Sea.

Joseph Kosloski, 29, deported from England for his alleged Bolshevistic utterances on the streets of Liverpool, reached here aboard the White liner Cedre Kosloski last night, and was detained aboard the ship and will be taken to Ellis Island to-day. According to the officers of the Cedre Kosloski managed to get to England employed as an oiler aboard the liner Cedre. He is also accused of being in the country on several charges, it was said by officials of the company.

When the Cedre sailed from England Kosloski's name appeared on the ship's list as a crew member. He was listed as was listed as a trimmer in the stoke hold. When the ship left England Pursuer Robert Edwards took Kosloski's papers from him after reports had come aboard the ship and he was taken to Ellis Island to-day. According to the officers of the Cedre Kosloski managed to get to England employed as an oiler aboard the liner Cedre. He is also accused of being in the country on several charges, it was said by officials of the company.

### WOMEN MAY SMOKE ON BOSTON'S STREETS

#### Police Superintendent Knows No Legal Bar There.

Special Dispatch to THE NEW YORK HERALD.

Boston, Aug. 20.—Women may smoke on the streets of Boston, according to Superintendent of Police Crowley, when his attention was called to a test case in New York, where a Police Commissioner, Burleigh, is to decide whether a policeman can stop a woman from smoking a cigarette on the sidewalk.

"I know of no law," says Superintendent Crowley, "which prohibits smoking except in restricted places, such as, for example, as Faneuil Hall or in railroad and trolley cars, when not in smoking compartments."

"I can see no violation of any law if a woman lights a cigarette, cigar or even a pipe in the street if she so desires. If a crowd of curious persons gathered and followed or annoyed the smoker, charges might be brought against them, while the woman smoker could go on her way."

**HICKS RETURNS IN PLANE.**

WASHINGTON, Aug. 20.—Representative Hicks of New York, absent from Congress, returned from a Western trip to-night in an air mail plane. He left Chicago at 10:45 A. M. and reached Buffalo at 10:45 P. M.
